**Adaptability** - The ability to adapt and respond to changing work situations and environments.

- If you were working on an important assignment and the requirements changed in the middle of the project, what would you do? How would you feel about having to adapt to the changes?

- Tell us about a situation in which you had to adjust quickly to a change in organizational, departmental, or team priorities. How did the change affect you?

- If you found yourself in a situation where you had to meet a scheduled deadline but your work was continually disrupted by others on your team, what would you do and why?

- Tell us about the most difficult manager/supervisor/team leader you’ve had to work for. Why was it difficult to work for this person? How did you handle this difficult relationship?

- We’ve all faced difficult problems at work. Tell us about a problem that you did not solve on the first try. What did you do? What was the final outcome?

- This job requires excellent communication and interactive skills. Describe a past job or experience that required the ability to deal with a wide variety of people and expectations. What did you like or not like about that job/experience?
