Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The AMIKids Beaufort facility is located in Beaufort, South Carolina. This is the facility's first PREA audit. This audit was attained and assigned to the Auditor by Diversified Correctional Services, LLC of Blackshear, Georgia.

In preparation for the on-site audit, a conference call was conducted with the AMIKids PREA Coordinator, the facility's Executive Director (ED), and this Auditor to discuss the audit process and data gathering. During the conference call, introductions were made and the audit process and requested documentation were reviewed. The pre-audit preparation phase included a review of all documentation, materials, and data submitted by the facility in the completed Pre-Audit Questionnaire (PAQ). The documentation reviewed included agency policies and procedures; forms; organizational charts; PREA related posters, brochures; training documentation for staff, volunteers and contractors; and interagency collaborative agreements.

The notifications of the on-site audit were posted in various parts of the facility at least six weeks prior to the site visit. Photographs were taken of the various sites where the notices had been posted and the photographs were electronically sent to this Auditor, noting their locations. The Pre-Audit Questionnaire and the supporting documentation were uploaded to a flash drive, which was received approximately three weeks prior to the on-site audit. During the review of the information on the flash drive, communication was maintained with the facility and agency staff and additional information was provided or clarified as requested.

During the onsite audit, an entrance meeting was held with the Executive Director, Program Manager, and a Human Services Professional. Following the meeting, a comprehensive tour of the facility was provided by the Executive Director, Program Manager, and a Human Services Professional. During the tour, direct-care staff was observed to be supervising and interacting with the residents.

PREA signage was not displayed in all areas frequented by the residents; therefore, the Auditor recommended additional PREA signage be posted and ensure postings have bold print and is youth friendly. Toilets and urinals located in the laundry room do not provide a reasonable amount of privacy for the residents. Corrective actions were taken to rectify these issues. Photos of the additional signage and signage indicating residents are not allowed in the laundry room along with a lock on the laundry door were sent to the Auditor to verify the actions taken.

An early morning arrival at the facility allowed this Auditor to interview overnight shift and to observe overnight and early morning operations. Twelve random direct care staff from three shifts and six specialized staff were interviewed. Overall, the interviews revealed staff are knowledgeable of PREA standards and were able to articulate their responsibilities. Ten residents were also interviewed. The interviews revealed the residents were informed of their right to be free from sexual abuse and sexual harassment and how to report sexual abuse and sexual harassment. The interview selections were randomly made from rosters provided by the facility.

The training records of staff interviewed, and the files of residents interviewed were reviewed along with policies and other secondary documentation. The Auditor reviewed staff and volunteer training records to ensure all required training had been completed. The Auditor also reviewed staff personnel files to determine if there were any completed investigations and disciplinary actions taken regarding PREA related allegations.

The victims' advocacy service, Hopeful Horizons, was contacted to determine the scope of services provided. A live person responded to the call and indicated that there were no calls received from AMIKids Beaufort residents over the past 12 months.

Additional information for the audit process was provided upon request and in a timely manner while on-site. A close-out meeting was held at the conclusion of the site visit and an opportunity for questions and a review of the on-site audit process were provided.

With the necessary corrective actions addressed, the facility was found to be in compliance with all applicable standards as indicated below and detailed throughout this report.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The AMIKids Beaufort facility is a non-secure, intermediate risk facility that serves male juvenile offenders between the ages of 14-18. Residents have been committed to the care and custody of the South Carolina Department of Juvenile Justice through the juvenile court system. The average length of stay is approximately 90 days. The facility's rated capacity is 30. Fifty-nine residents have been admitted to the AMIKids Beaufort facility in the past 12 months. There is no video or electronic monitoring technology used at this facility.

The physical plant consists of an administration building, two dorm buildings, one educational building, one laundry room, one vocational building, one student pavilion, dining hall and a swimming pool. There is an outside recreation area on the grounds where youth can participate in various sports and activities.

Visitation is conducted on Sunday and Wednesday. The facility provides supervision of residents in a safe, secure and humane environment. Full bathrooms are in each housing unit and provide a reasonable amount of privacy for the residents.

The AMIKids Beaufort facility employs one Executive Director, one Business Manager, one Program Manager, two Team Leaders, fourteen Direct Care staff, three Certified Teachers, one Career Coordinator, three Human Services Professionals, and one Kitchen Manager. Medical services are provided, through a contract, by Doctor's Care as needed.

Instructions for Overall Compliance Determination Narrative

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

AMIKids Beaufort meets the requirements of this standard based upon the following evidence:

The facility's PREA Policy 6.13 and practices provide for the implementation of a staffing plan with adequate staffing levels to protect residents against sexual abuse and provides that the staffing ratios are per the current program contract. According to the staffing plan and staff interviews the ratios within the facility are 1:6 during the awake hours and 1:10 during the sleeping hours.

The staffing plan is based upon the facility's capacity of 30 residents. The facility's Policy requires the facility to document deviations from the staffing plan on the Shift Report; however, due to the facility's consistent staffing ratios, there were no deviations from the plan to review.

Documentation of the annual assessment of the staffing plan dated February 12, 2017 was reviewed and found to be in compliance with all elements contained in (d)-1 of this standard.

The facility utilizes direct staff supervision to protect residents from sexual abuse and sexual harassment. The facility's Policy requires intermediate or higher-level staff to conduct unannounced rounds to deter and identify staff sexual abuse and sexual harassment. Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

AMIKids Beaufort meets the requirements of this standard based upon the following evidence:

AMIKids Beaufort FOP PREA 6.15 prohibit cross-gender strip searches. It also prohibits pat down searches of residents, except in exigent circumstances. There have been no such searches conducted by direct care staff in the past 12 months as verified by random staff and random resident interviews.

The facility's PREA Policy states visual body cavity searches are prohibited.

The PREA Policy states the facility must be configured to allow residents to shower, perform bodily functions and change clothing without staff of the opposite sex viewing their bodies. Staff and resident interviews confirm there is no cross-gender viewing. Observation of the bathrooms revealed all shower stalls have shower curtains to allow privacy while taking showers.

Toilets and urinals located in the laundry room do not provide a reasonable amount of privacy for the residents. Corrective actions were taken to rectify this issue. Photos of signage indicating residents are not allowed in the laundry room along with a lock being placed on the laundry door were sent to the Auditor to verify the actions taken.

The facility's PREA Policy require opposite sex staff, volunteers and contractors entering housing units to announce themselves. Resident and random staff interviews verified this is done on a consistent basis.

The facility's PREA Policy prohibits the search of a transgender or intersex resident solely for the purpose of determining the resident's genital status and staff interviews verified compliance.

One hundred percent of direct care staff have received training on cross-gender pat down searches and searches of transgender and intersex residents. The training was verified during interviews of random staff. Training curriculum and training logs were reviewed and confirmed compliance.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

AMIKids Beaufort meets the requirements of this standard based upon the following evidence:

AMIKids, Inc. PREA Policy and the facility's PREA Policy 6.17, Hiring and Promotion Decisions, address hiring and promotion processes and decisions, including the requirement for background checks for new hires. The collective Policies and interview with the Human Resource staff member revealed information regarding the hiring process, completion of background checks, and the grounds for termination. The Policies are aligned with the requirements of the standard and provide that background checks are conducted every five years. A review of a sample of personnel files confirmed compliance.

A pre-hire form requires applicants to provide information regarding previously related sexual misconduct allegations and convictions. The policy prohibits hiring or promoting anyone who may have contact with residents and prohibit enlisting the services of any contractor who may have contact with residents who engaged in previous sexual misconduct.

According to the Business Manager, the facility considers any incidents of sexual abuse or sexual harassment in determining whether to hire a person, contract for services, or whether to promote an employee. The policy and an interview with the Business Manager indicates staff has a continuing duty to report misconduct and provide omissions of misconduct or providing false information will be grounds for termination.

A review of personnel files for a sample of staff hired in the past 12 months revealed all had criminal records checks. A sample review of personnel files of current staff employed for more than five years revealed all have had criminal background checks conducted as required.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

Does Not Meet Standard (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

AMIKids Beaufort meets the requirements of this standard based upon the following evidence:

The facility's PREA Policy 6.41 address this standard. The screening for risk of sexual abuse victimization or sexual abusiveness toward other residents is being conducted on each resident. The initial screening is done during the intake process and the facility's PREA Policy states the treatment teams should continually review the resident's adjustment. Interviews with residents and staff and a review of documentation confirmed the practices.

A review of the Vulnerability to Victimization and Sexually Aggressive Behavior (VSAB) forms in residents' files and resident interviews revealed risk screenings are being conducted or reviewed by Intake staff within 72 hours of the resident's arrival at the facility. The VSAB form includes each component contained in section (c) of this standard.

Resident interviews indicated they were asked whether they identify with being gay, bi-sexual, transgender or intersex, if they think they are in danger of sexual abuse and if they have any disabilities. Random resident interviews verified they were asked the same questions by mental health staff during their initial interview.

Completed VSAB forms are maintained in residents' medical and Intake files and are available to staff only on a need to know basis.
