
DEPARTMENT OF JUVENILE JUSTICE

DJJ Career Ladder

DJJ is moving forward in implementing a new career ladder aimed at offering career advancement for current security staff and attracting more experienced personnel in this area. Under the provisions set forth by Governor Sanford, the Department is increasing the number of security staff and is using a more strategic approach to hiring and promoting officers. Efforts in this area are reflective in the recent creation of three new leadership positions that will place *Majors* on duty around the clock to ensure greater accountability.
