### **DJJ Youth Headed to Outward Bound Discovery Program**

DJJ has received \$45,000 in private donations through the Seewee Foundation, an Awendaw, SC-based non-profit organization, to support placing DJJ youth in the Outward Bound Discovery Program. Placement is expected to begin sometime in early May. Five core principles guide the program in which youth are given the opportunity to explore the values of challenge and adventure, compassion and service, social and environmental responsibility, character development, and learning through experience. The ultimate goal of Outward Bound is to divert youth away from negative behavior.

### **DJJ wins in North/South Basketball Game**

On Saturday, April 9 after a three-year losing streak, DJJ youth bounded to a 61 to 60 win over the North Carolina Department of Juvenile Justice and Delinquency Prevention team in a competitive basketball game on DJJ's Broad River Road Campus. For nearly 25 years, the two agencies have faced each other on the basketball court in what is highly billed as the North/South Game.
