Review of 2017 MHBG Behavioral Health Report

Review – South Carolina Mental Health State Planning Council
On Monday, October 31, 2016, a Request for Comments on the 2017 MHBG Behavioral Health Report (Report) was distributed via email to all members of the South Carolina Mental Health State Planning Council (Council). Attached to the email was a draft copy of the Report. The body of the email contained a summary of the Report including information on the following sections: Priority Area and Annual Performance Indicators - Progress Report; MHBG Expenditures by Service; Set-Aside for Children’s Mental Health Services; and, Maintenance of Effort for State Expenditures on Mental Health Services. Council members were provided with a 30-day review and comment period with all feedback requested by 12:00 Noon on Wednesday, November 30, 2016. The Council was notified to whom any comments should be directed.

In order to provide continual access not only to the Report, but also to the Uniform Application submitted on September 1, 2015 and the Mini-App submitted on September 1, 2016, all three (3) documents were posted on SCDMH’s internet home page. The Council was notified of this fact.

On Wednesday, November 16, 2016, the Agenda for the General Meeting of the Council included items to address the following: Ten Percent Set-Aside Update; MHBG Proposed Allocation from SAMHSA; and, 2017 MHBG Behavioral Health Report. An overview of the 2017 MHBG Behavioral Health Report was provided with additional details related to the Ten Percent Set-Aside.

As of 12:00 Noon on Wednesday, November 30, 2016, no recommendations for modifications to the 2017 MHBG Behavioral Health Report have been offered by the members of the South Carolina Mental Health State Planning Council.

Public Notice – Media Alert
On Monday, October 31, 2016, a Request for Public Comment on the 2017 MHBG Behavioral Health Report (Report) was issued via SCDMH’s standard procedure to provide statewide public notice by sending a ‘media alert’ notification to all daily and non-daily (non-daily count = 55) newspapers in the State. Members of the public were provided with a 30-day review and comment period with all feedback requested by 12:00 Noon on Wednesday, November 30, 2016. Members of the public were notified to whom any comments should be directed.

In order to provide continual access not only to the Report, but also to the Uniform Application submitted on September 1, 2015 and the Mini-App submitted on September 1, 2016, all three (3) documents were posted on SCDMH’s internet home page. Members of the public were notified of this fact.

As of 12:00 Noon on Wednesday, November 30, 2016, no recommendations for modifications to the 2017 MHBG Behavioral Health Report have been offered by members of the public.

Public Notice – Social Media
On Monday, October 31, 2016, a Facebook Event announcing a Request for Public Comment on the 2017 MHBG Behavioral Health Report (Report) was established on SCDMH's Facebook page. Members of the public were provided with a 30-day review and comment period with all feedback requested by 12:00 Noon on Wednesday, November 30, 2016. Members of the public were notified to whom any comments should be directed.
In order to provide continual access not only to the Report, but also to the Uniform Application submitted on September 1, 2015 and the Mini-App submitted on September 1, 2016, all three (3) documents were posted on SCDMH’s internet home page. Members of the public were notified of this fact.

As of 12:00 Noon on Wednesday, November 30, 2016, no recommendations for modifications to the 2017 MHBG Behavioral Health Report have been offered by members of the public.

**Notice – Internet Home Page**

In order to provide unlimited access not only to the Report, but also to the Uniform Application submitted on September 1, 2015 and the Mini-App submitted on September 1, 2016, all three (3) documents were posted on SCDMH’s internet home page on Friday, October 28, 2016. Members of the public visiting SCDMH’s internet website were immediately presented with a Request for Public Comment: Mental Health Block Grant Report.

Members of the public were provided with a 30-day review and comment period with all feedback requested by Wednesday, November 30, 2016. Members of the public were notified to whom any comments should be directed.

As of Wednesday, November 30, 2016, no recommendations for modifications to the 2017 MHBG Behavioral Health Report have been offered by members of the public.

**Notice – Intranet Home Page**

In order to provide unlimited access not only to the Report, but also to the Uniform Application submitted on September 1, 2015 and the Mini-App submitted on September 1, 2016, all three (3) documents were posted on SCDMH’s intranet home page on Friday, October 28, 2016. Staff of SCDMH visiting SCDMH’s intranet website were immediately presented with a Request for Public Comment: Mental Health Block Grant Report.

Staff of SCDMH was provided with a 30-day review and comment period with all feedback requested by Wednesday, November 30, 2016. Staff of SCDMH was notified to whom any comments should be directed.

As of Wednesday, November 30, 2016, no recommendations for modifications to the 2017 MHBG Behavioral Health Report have been offered by staff of SCDMH.

[End]
**Priority #** 1

**Priority Area:** FY2015 Agency Accountability Report

**Priority Type:** MHS

**Population(s):** SMI, SED, Other (All Persons Served)

**Goal of the priority area:**

The intent is to measure the activities and achievements of the Department and compare said measurements to internal and external benchmarks, as available and appropriate, established over time.

**Strategies to attain the goal:**

Given the comprehensiveness of the measurement tools, changes in results from one year to the next generally are a reasonable determinant of the effectiveness of the mental health continuum - understanding that South Carolina has an integrated system of care over which SCDMH has significant influence and control since it is the primary service provider for inpatient and community services.

Priority #:
2

Priority Area:
Five Percent Set Aside for First Episode Psychosis

Priority Type:
MHS

Population(s):
SMI, SED, Other (Population Defined in Section IV, Item 5)

Goal of the priority area:
The intent is to address the needs of persons with early psychotic disorders, specifically first episode psychosis, either through enhancing existing program activities or development of new activities.

**Strategies to attain the goal:**

The Department has specifically cited Motivational Interviewing (MI) and Cognitive Behavioral Therapy (CBT) as the treatment modalities it will deploy utilizing the Five Percent Set Aside. These treatment modalities have been identified as appropriate and effective for persons experiencing First Episode Psychosis (FEP). It has also been found that maximum effectiveness is attainable when the two modalities are deployed together. MI serves as the engagement modality and CBT serves as the therapy modality.

**Data issues/caveats that affect outcome measures:**

SCDMH plans to work with Dr. Meera Narasimhan and her team at the University of South Carolina, School of Medicine to evaluate outcomes at the three initial sites that have begun this Program. Outcomes will include clinical and social parameters. Clinical measures of outcome will include psychopathology, hospitalization, and suicidality. Social parameters will include quality of life functioning, employability and the ability to live independently.

SCDMH will work with Dr. Narasimhan to determine those outcome measurements appropriate to demonstrate the efficacy of the Programs beyond reporting only number of patients served.

**Report of Progress Toward Goal Attainment**

| First Year Target: | £ Achieved | b Not Achieved (if not achieved, explain why) |

**Reason why target was not achieved, and changes proposed to meet target:**

**FY2016 Update:**

The Traditional Program served a total of 255 individuals – Charleston-Dorchester Mental Health Center (36), Pee Dee Mental Health Center (121), and Lexington County Community Mental Health Center (98). SCDMH did not meet its target because the target estimate was not appropriately calculated. As outlined in Section IV - Item 5 - Evidence-Based Practices for Early Intervention (5 Percent), “[e]ach masters-level clinician will be expected to carry a caseload of approximately 30 persons.” Based on awards for 6.5 FTEs, and a conservative total annual number served by each FTE of 40, a reasonable total annual number served by all FTEs would be 260. Therefore, SCDMH is, upon agreement with SAMHSA, proposing to change its second-year target/outcome measurement to 260.

As of October 11, 2016, the South Carolina Department of Mental Health (SCDMH) had actual expenditures on the 2015 MHBG of $341,824.30. The allotted amount was $350,000.00. SCDMH has actual expenditures on the 2016 MHBG of $26,521.68, thus far. The allotted amount is $355,998.00.
The CSC Program
As noted in IV - Item 5 - Revised March 2016 included in the FY 2016/2017 State Behavioral Health Assessment and Plan, Community Mental Health Services Block Grant, “[a]s has been previously noted with The Traditional Program, staffing The CSC Program in Year 1 will be one of the more significant challenges to full implementation of the program.” In fact, in The CSC Program - CDMHC, also included in the FY 2016/2017 State Behavioral Health Assessment and Plan, Community Mental Health Services Block Grant, the timeline for hiring all staff was July 2, 2016. SCDMH did not meet this goal.

However, as of October 12, 2016, Charleston-Dorchester Mental Health Center (CDMHC) has hired the Team Leader and identified two (2) therapists who will transition to The CSC Program in November 2016. One (1) of the two (2) identified therapists is trained in alcohol and drug treatment. CDMHC has also identified staff from the South Carolina Vocational Rehabilitation Department to serve on The CSC Program team, as well as, a Peer Support Specialist. Lastly, CDMHC is coordinating with SCDMH Care Coordination to identify a Care Coordinator to serve on The CSC Program team. As a result of the significant progress towards establishing The CSC Program team, CDMHC will soon engage NAVIGATE program trainers to implement the Evidence-Based Practice.

Also as noted in IV - Item 5 - Revised March 2016 included in the FY 2016/2017 State Behavioral Health Assessment and Plan, Community Mental Health Services Block Grant, “given SCDMH’s proposal to implement a new program late in the MHBG award year to meet its revised annual obligation for the Set Aside for First Episode Psychosis (FEP), which will require technical assistance, planning, implementation, and first-year phase-in, it is estimated that SCDMH will not expend the total amount budgeted for The CSC Program.” SCDMH estimated correctly. SCDMH will not draw down MHBG funds associated with the difference between actual expenditures and the allocation to The CSC Program.

As of October 11, 2016, SCDMH has actual expenditures on the 2016 MHBG of $13,451.77, thus far. The allotted amount is $393,578.00.

How first year target was achieved (optional):

Priority #: 3
Priority Area: Comprehensive Assessment
Priority Type: MHS
Population(s): SMI, SED, Other (All Persons Served)

Goal of the priority area:

SCDMH identified certain opportunities in its operations that would lead to cost savings and increased efficiencies. Many of the identified opportunities illuminate unmet service needs and critical gaps within the current system.

Strategies to attain the goal:
The strategy is defined by the Performance Indicator and may vary depending upon the nature of the effort, but all are related to the enhancement of the overall mental health continuum.

Report of Progress Toward Goal Attainment

First Year Target: Achieved

Reason why target was not achieved, and changes proposed to meet target:

How first year target was achieved (optional):

FY2016 Result: SCDMH currently has 201 staff training programs available by computer.

Indicator #: 2
Indicator: Implement Use of Electronic Medical Record
Baseline Measurement: Provided as Reference Information for Possible Future Emphasis for SCDMH
First-year target/outcome measurement: Baseline
Second-year target/outcome measurement: Compare to Prior Year’s Results
New Second-year target/outcome measurement (if needed):

Data Source: SCDMH - Division of Inpatient Services

Description of Data:
The Department’s goal is to provide technologically-appropriate resources for the efficient and effective provision of care for patients receiving inpatient services. Electronic Medical Records reduce required storage space for physical storage media (i.e. paper records), assimilate various components of a patient’s medical record into a single access point, reduce the cost of record transference, improve overall operating efficiency, increase portability and accessibility of health information, reduce medical errors, provide for ease of updating to current technologies including coding, and will transition the Department into compliance with Medicare and Medicaid preferred technolgies.
Indicator: Expand Use of Telepsychiatry

Baseline Measurement: Provided as Reference Information for Possible Future Emphasis for SCDMH

First-year target/outcome measurement: Baseline

Second-year target/outcome measurement: Compare to Prior Year’s Results

New Second-year target/outcome measurement(if needed):

Data Source: South Carolina Department of Mental Health

New Data Source(if needed):

Description of Data:
SCDMH partnered with the Duke Endowment, South Carolina Department of Health and Human Services, the University of South Carolina School of Medicine and the South Carolina Hospital Association to create the SCDMH telepsychiatry program to address the overcrowding of psychiatric patients in local hospital emergency departments (“ED”). It is a cutting-edge statewide service delivery model that provides remote access for EDs in rural areas of South Carolina to psychiatrists whenever psychiatric consultation services are required. And it is the first of its kind nationally, and has been widely recognized for its effectiveness. Just as with the previously mentioned program, which is still expanding, SCDMH has begun the expanded use of telepsychiatry in its Community Mental Health Centers (CMHC) and Inpatient Facilities. The CMHCs program utilizes telepsychiatry in a two-fold manner: Center-to-Clinic and Center-to-Center. Center-to-Clinic Telepsychiatry connects the primary CMHC with its satellite mental health clinics. Center-to-Center Telepsychiatry connects the CMHCs to each other. In addition, the Inpatient Facilities are able to capitalize on the use of telepsychiatry, as well. This expanded use of technology, in the form of telepsychiatry, provides the opportunity for the Department’s 17 CMHCs, 46 Mental Health Clinics, and 4 Inpatient Facilities to utilize a common pool of physicians to deliver services to clients and patients without the loss of productivity associated with travel time, and to deliver services to clients and patients in rural areas where physician availability may be non-existent.

New Description of Data:(if needed)

Data issues/caveats that affect outcome measures:
None

New Data issues/caveats that affect outcome measures:

Report of Progress Toward Goal Attainment

First Year Target: Achieved

Reason why target was not achieved, and changes proposed to meet target:

How first year target was achieved (optional):

FY2016 Result: SCDMH has currently deployed its Emergency Department Telepsychiatry Consultation Program in 25 Emergency Departments (ED) across the State of South Carolina, and is considering expansion into additional hospitals with a focus on rural EDs. SCDMH has also deployed telepsychiatry equipment to all of its Community Mental Health Centers.

Indicator #:

Indicator: Expand Use of School-Based Services

Baseline Measurement: Provided as Reference Information for Possible Future Emphasis for SCDMH

First-year target/outcome measurement: Baseline

Second-year target/outcome measurement: Compare to Prior Year’s Results

New Second-year target/outcome measurement(if needed):

Data Source:
SCDMH - Division of Community Mental Health Services

New Data Source(if needed):
Description of Data:

SCDMH school-based mental health (SBMH) services improve access to needed mental health services for children and their families. The information exchange and collaboration that develops between school teachers, school counselors and administrators and school based mental health staff improves early identification and treatment for children in need; and, for those children and families in need of services, the SBMH program services increase school attendance, reduce discipline referrals and decrease drop-out rates. These positive outcomes for the student and their families also positively correlate to a decreased risk for violence in the school and community.

New Description of Data:(if needed)

Data issues/caveats that affect outcome measures:
None

New Data issues/caveats that affect outcome measures:

Report of Progress Toward Goal Attainment

First Year Target: Achieved

Reason why target was not achieved, and changes proposed to meet target:

How first year target was achieved (optional):
FY2016 Result: SCDMH has expanded school-based services into 520 schools across the State of South Carolina.

Indicator #:
5

Indicator: Expand Use of MHP in ED

Baseline Measurement: Provided as Reference Information for Possible Future Emphasis for SCDMH

First-year target/outcome measurement: Baseline

Second-year target/outcome measurement: Compare to Prior Year’s Results

New Second-year target/outcome measurement(if needed):

Data Source:
SCDMH - Division of Community Mental Health Services

New Data Source(if needed):

Description of Data:
The MHP provides consultative services to patients experiencing psychiatric emergencies in the emergency department and facilitates linkage to appropriate resources. Evidence supports the assertion that MHPs placed in Emergency Departments to augment the mental health resources currently available have a direct impact on the overall treatment of patients presenting with possible mental health issues. MHPs support the determination process for appropriateness for inpatient admission, and therein the absolute number of patients admitted versus those discharged the same day, and they positively affect the overall effectiveness of navigating patients presenting with potential mental health issues through the Emergency Department process. These placements create partnerships between SCDMH and the placement hospitals and leverage the resources of all.

**New Second-year target/outcome measurement (if needed):**

**Data Source:**

South Carolina Department of Mental Health

**New Data Source (if needed):**

**Description of Data:**

As summarized in a recent article, "the pool of qualified mental health professionals is not keeping pace with the population that needs their services, and in some cases, is decreasing. For example, the number of graduates from psychiatry training programs decreased by 14 percent from 2000 to 2008, and more than half of all psychiatrists are at least 55 years of age.9 In 2013, SAMSHA reported to Congress that 55 percent of U.S. counties, all rural, have no practicing psychiatrists, psychologists, or social workers.10 In addition, according to the South Carolina GME Advisory Group in response to Proviso 33.34 (E), “the demographics of the physician workforce in South Carolina do not reflect the racial composition of South Carolina’s population.” And, there exists a bottleneck in medical residency slots. These circumstances, exacerbated by the low salaries offered by state government, will necessitate creative solutions to recruitment, retention, and graduate medical education.

**How first year target was achieved (optional):**

FY2016 Result: SCDMH has enhanced its workforce development efforts with utilization of advertising, attendance at industry-specific conferences, participation in recruitment events, coordination of employment fairs, and participation in workgroups related to the topic, such as the recently held SAMHSA Regional Workforce Development Workshop.
SCDMH has a long history of making efforts to foster more permanent supportive community housing for its patients. Appropriate housing is often the single biggest factor in determining whether a patient with serious psychiatric impairments is able to be successfully discharged or is able to remain successful in their recovery in the community. SCDMH is seeking new funds in each of the next three years to increase community supportive housing for its patients. Funds will be used for rental assistance in supported apartments and for transitioning patients into independent living.

Report of Progress Toward Goal Attainment

First Year Target: Achieved

How first year target was achieved (optional):

FY2016 Result: With additional funds received in FY2015 and FY2016, SCDMH now supports 261 units throughout the state with rental assistance for clients and their families. All units are located in scattered sites and are integrated into the community.

Indicator #: 8
Indicator: Enhance Partnerships
Baseline Measurement: Provided as Reference Information for Possible Future Emphasis for SCDMH
First-year target/outcome measurement: Baseline
Second-year target/outcome measurement: Compare to Prior Year’s Results

New Description of Data:

The South Carolina Department of Mental Health has affiliations with more than 50 educational institutions in South Carolina and more than five other states. SCDMH’s affiliation with the University of South Carolina includes activity therapy, clinical counseling, medical students, social work, psychology interns, psychology graduate studies, and residents and fellows in psychiatry. Residents from the MUSC Residency Training Program receive educational experiences and supervision in Psychiatry, through scheduled rotations at the Charleston Dorchester Mental Health Center (CDMHC). SCDMH also works closely with independent advocacy organizations to improve the quality of lives for the persons with mental illness, their families, and the citizens in South Carolina.

</table>

**Description of Data:**

Health homes build a comprehensive array of services around the particular needs of a client, including coordinating and integrating behavioral health care and primary health care, and establishing linkages to community supports and resources. Rather than expecting a client to navigate a complex medical environment of dispersed and sometimes fragmented services, the behavioral health home creates a single point of contact for clients around which the sphere of services circulates.

**First Year Target:** Achieved  
Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

**How first year target was achieved (optional):**

FY2016 Result: SCDMH is moving forward with its plan to develop Behavioral Health Homes. SCDMH has completed technical assistance with the National Academy for State Health Policy (NASHP) and is implementing its recommendations in collaboration with the South Carolina Department of Health and Human Services (Medicaid).
First-year target/outcome measurement: Baseline
Second-year target/outcome measurement: Compare to Prior Year’s Results
New Second-year target/outcome measurement (if needed):

Data Source:
South Carolina Department of Mental Health

New Data Source (if needed):

Description of Data:
In addition to the Telepsychiatry ED consultation program, SC DMH, through its Community Mental Health Centers, utilizes a number of measures to divert individuals in a behavioral health crisis from community hospital emergency departments. The crisis intervention measures include entering into contracts with hospitals with community psychiatric beds to admit patients referred by Centers; funding all or part of a mental health professional’s salary to provide on-site consultation to hospital emergency departments; and funding the mobile crisis program in Charleston.

New Description of Data (if needed):

Data issues/caveats that affect outcome measures:
None

New Data issues/caveats that affect outcome measures:

Report of Progress Toward Goal Attainment
First Year Target: Achieved

Reason why target was not achieved, and changes proposed to meet target:

How first year target was achieved (optional):
FY2016 Result: SC DMH continues to focus on emergency psychiatric services. The Department purchases local/private inpatient beds; outstations Mental Health Professionals (MHP) in Emergency Departments; and, funds mobile crisis programs, including the Mobile Crisis Unit and Highway to Hope. It also has provided center crisis stabilization interventions and staff for crisis teams, co-occurring disorder teams, peer support, nurse care coordinators, case service funding for medications and other essentials, suicide prevention, intensive case management teams, jail liaisons, and support for center-to-clinic telepsychiatry.

Priority #:
4

Priority Area:
FY2016 Budget Requests

Priority Type:
MHS

Population(s):
SMI, SED, Other (All Persons Served)

Goal of the priority area:
The budget requests establish the funding priorities for SC DMH and effectively define the monetary strategic initiatives relevant to the strategic direction of SC DMH.

Strategies to attain the goal:
The FY2016 Budget Requests focus on three areas: maintaining the current capacity of the mental health system; addressing the areas in which SC DMH is experiencing increasing demand; and, capitalizing on promising technologies that relieve certain strains on the mental health system. These requests are particularly relevant for inclusion in the FY2016-2017 CMHS Block Grant Application because the approval of said requests will bring about the conclusion of a multi-year endeavor to restore a portion of the funding reductions of prior fiscal years.

### III: Expenditure Reports

**MHBG Table 4 - Set-aside for Children's Mental Health Services**

<table>
<thead>
<tr>
<th>State Expenditures for Mental Health Services</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Actual SFY 2008</td>
<td>Actual SFY 2015</td>
</tr>
<tr>
<td>$26,040,177</td>
<td>$14,119,869</td>
</tr>
</tbody>
</table>

States are required to not spend less than the amount expended in Actual SFY 2008. This is a change from the previous year, when the baseline for the state expenditures was 1994.
