Henry E. (Gene) Kodama, State Forester

November 10, 2011

Dear Sir or Madam:

Attached is the South Carolina BMP Courtesy Exam Log for October 2011. Twenty-eight sites were closed out during the month. One of these sites was found to be out of compliance with applicable BMPs, and likely in-stream water quality impacts resulted from this forest operation.

Piedmont 2083 was a clearcut harvest in Richland County that was rated Unacceptable in the category of Streamside Management Zones due to overharvesting of the SMZ along a perennial stream. Excessive debris was successfully removed from the stream channel, and no further remediation is required.

BMPs were properly applied by those responsible on nineteen sites reported this month. On the remaining exams BMP Foresters provided recommendations to assist with compliance on eight sites.

Please contact the appropriate BMP Forester or me if you need further information concerning this report. I can be reached by phone at (803) 896-8593 and email at gsabin@forestry.state.sc.us. Thank you for your interest in our BMP program.

Sincerely,

Guy R. Sabin
Environmental Program Manager

Enclosure
