# SCFC and ArborGen join forces to reboot Taylor Nursery

## What the partnership means to SC landowners

The South Carolina Forestry Commission is proud to partner with commercial seedling provider ArborGen on the production, sales and delivery of forest tree seedlings for SC landowners. Taylor Nursery, near Trenton, S.C., is still owned by the Forestry Commission, but ArborGen is now providing management services to operate the nursery.

ArborGen is making capital investments to the facility to increase its production capacity; this unique public/private partnership will guarantee SC landowners improved genetics and quality seedlings for years to come.

Under this partnership, the Forestry Commission will determine seedling production for up to 5 million seedlings annually, with 2.86 million seedlings to be grown in 2018-2019. The Forestry Commission will set prices for these seedlings grown for us by ArborGen.

*Be sure to ask for your Forestry Commission discount when placing your order with ArborGen.*

The discounted prices will only apply to the first 100,000 seedlings ordered annually by each qualified landowner. Landowners must plant the seedlings in South Carolina to be eligible for the discount.

As always, feedback from you on our seedling program is essential. Please supply ArborGen with your email address when placing your order so the Forestry Commission can include you in our annual Seedling Customer Satisfaction Survey at the end of each planting season.

For more information, or if you just have questions about this partnership, please contact SCFC Resource Development Director Tim Adams at (803) 896-8802 or [tadams@scfc.gov](mailto:tadams@scfc.gov). Don't forget to ask for your discount!
